My story from Camp Edmo

By **Sydney Segal, Neil Cummins Elementary School, Grade 4**

"Smack!" You throw a pie at a counselor's face and sing the "Edmo" theme song, that is a typical day at Camp Edmo. From the moment I step on the curb, I get excited when I see my counselor in a cape—it must be costume day! Each week there is a new theme. For Cosmic Creations week last summer I created an alien mask in art class, I looked like I came from another planet when I put the mask on. In recreation I played fun games with my group. But that is just a typical Arts & Science day.

Animation is fun too. In animation I created a 1 to 2 minute video on toys that come alive at night and cause the end of the world. I love Camp Edmo! Now that I am going into 5th grade, I can't wait for camp EdTech!.
